How We're Different

BSI Temporary Services focuses entirely on maintenance, manufacturing and construction personnel. That is what we do. All of our systems are tailored exclusively to attract, recruit and retain these types of people.

We pride ourselves in customer service and relationship building. The majority of our clients have been with us for over 15 years. We have earned their loyalty by listening to and responding to their needs.

We don't use a "cookie cutter" approach to staffing. We know each client is unique and has specific needs and each is equally valuable to us. Our team partners with our clients to tailor a process that fits just right; whether it is providing particular reporting criteria, implementing heightened screening techniques or special safety concerns, we learn what you need and we provide it.

Our approach boils down to a genuine care for our clients and employees. We work exceptionally hard to make the best match possible for both parties.

Our Services Include:

- Payroll records in compliance with all state & federal laws.
- Employee Screening
- Site Specific Safety Training.
- Drug Testing
- Criminal Background Checks
- DMV Checks
- Employment History Verification
